

## SONY

## ICD-BX800

- Up to 534 hours of audio in the LP mode; via 2GB flash memory
- Four recording modes including LP, SP, HQ and SHQ with 192kbps and frequency up to 20kHz
- Five message folders • Digital pitch control
- Selectable microphone sensitivity
- Alarm function • Large front speaker
- Simple divide and delete editing functions
- Dictation correction function lets you correct notes
- Voice operated recording —starts/stops recording automatically
- Stereo recording with optional external mic (via stereo mic jack)

B&amp;H# SOICDBX800 .....34.39

## ICD-PX820

## Step-up Features:

- High-speed USB 2.0 download to PC
- Dictation correction and Add function allows the original recording to be corrected or additional comments added during playback.
- Compatible with Dragon NaturallySpeaking software, the preferred legal, medical and professional voice to print software.
- Includes Digital Voice Editor software, USB cable

B&amp;H# SOICDPX820 .....49.99

## ICD-UX200 • ICD-UX300

## Step-up Features:

- NO dictation correction function
- Switchable noise cut function and low cut filter ensure maximum intelligibility. 21-step digital playback speed control makes it easier to hear exactly what's been said.
- MP3, AAC and WMA music player with supplied headphones—no need to carry another audio player.
- Direct USB connection to Mac or PC, eliminating the need for cables.
- ICD-UX200 has 2GB flash memory, the ICD-UX300 has a 4GB memory—can store over 1100 hours of audio in LP mode

ICD-UX200: In Silver (SOICDUX200), Red (SOICDUX200R), White (SOICDUX200W) .....79.99

ICD-UX81: In Black (SOICDUX300) .....119.99

## ICD-SX750 • ICD-SX750D

## Step-up Features:

- MP3, PCM and LPEC recording
- 750 hours of recording capacity via 2GB memory
- Manual or automatic recording level settings
- Podcast-ready with WAV recording and LPEC to WAV/MP3 conversion
- Noise Reduction Finish- reduces hand noise when holding the recorder
- High-speed USB 2.0 download to PC
- Carrying case and stereo headphones are included.

ICD-SX750: Edit voice and music recordings via supplied Sound Forge Audio Studio 9 LE software (SOICDSX750) .....118.29

ICD-SX750D: includes Dragon NaturallySpeaking® Voice to Print Recognition Software v10 R.E. (# SOICDSX750D) .....157.59

## SONY

## ICD-MX20 • ICD-MX20DR9

With the option of using the built-in 32MB flash memory, or utilizing Memory Stick Duo or Pro Duo media cards, the ICD-MX20 provides virtually unlimited capacity. This is especially important if you're at a long conference, and don't have time to download your files to a computer. Just put in a new Memory Stick Pro Duo media card, and keep recording. Each card can hold over 300 personalized folders, which makes organizing your audio a simple process. Otherwise the same, the ICD-MX20DR9 comes bundled with Dragon® NaturallySpeaking® Preferred Voice to Print Software to easily convert your audio files to text.

- Hybrid 32MB Flash/Memory Stick PRO Duo Slot allows you to record dictation on built-in memory or high capacity (up to 512MB) Memory Stick cards.
- High-speed USB 2.0 download to PC
- Dictation correction function lets you correct your notes
- Listen to the recording level by using headphones while the unit is recording and adjust accordingly.
- STLP mode lets you record up to 2¼ hours (on 32MB flash memory) while maintaining 2-channel recording.

ICD-MX20 (B&amp;H# SOICDMX20) .....249.95

- VOR (voice operated recording) —starts and stops recording automatically. Plus, you won't miss a single syllable thanks to the digital buffer.
- Organize over 300 message folders on a Memory Stick by type, such as Sales Letters, Customer Service Replies, Memos, Action Items, Personal, etc.
- Built-in stereo and directional microphones eliminate the need for an external microphone for convenience and ease of use. (Still offers an external mic input).

ICD-MX20DR9 (B&amp;H# SOICDMX20DR9) .....218.99

## ICD-BM1B

Featuring up to 46 hours recording time with supplied 128MB Memory Stick media, the ICD-BM1B is ideal for professionals, students or anyone on the go. Organize and edit recordings in 340 folders, then use the supplied digital voice editor software to send audible e-mails with an attached file. Comes equipped with a built-in speaker, hold button, date display, battery level indicator, alarm and digital clock. Seeing data and listening to audio is easy with the large LCD display for showing recording data and 350mW speaker output.

- Slide switch allows for one-button operation of all major functions
- High-speed USB 2.0 download to PC
- Digital pitch control

ICD-BM1B (B&amp;H# SOICDM1B) .....223.95

## PHILIPS

## LFH0612 Digital Voice Tracer

- Records (mono) in MP3 format—platform independent, no software needed
- Extra large display for fast and clear reading
- Large front speaker for good voice reproduction
- Voice-activated recording for hands-free dictation
- High-speed USB 2.0 download to PC
- ClearVoice improves intelligibility of soft voices
- Supports up to 99 recordings in each of four available folders to organize your files fast and easy
- Built-in 1GB memory—up to 139 hours recording time

PHDVR0612 .....69.95

## LFH0652 Digital Voice Tracer

## Step-up from LFH0642:

- Uncompressed PCM mono voice recording for CD-audio quality
- Plays MP3 music and WMA files—no need to carry a second MP3 player
- High sensitivity mic for clear playback and certified speech recognition accuracy
- Time stamped recording and Index setting
- Timer recording and alarm playback
- File split feature and Auto divide function • USB battery recharge
- Includes stereo earphones, lapel microphone

PHDVR0652 .....99.95

## LFH0642 Digital Voice Tracer

## Step-up from LFH0612

- Low-noise microphone for utmost speech clarity
- Voice volume indicator on the display for clear volume feedback.
- MP3 format with 5 recording modes : SHQ, HQ, SP, LP, and SLP
- 2GB memory—up to 278 hours recording time

PHDVR0642 .....89.95

## LFH0862 Digital Voice Tracer

- NO PCM recording
- Stereo recording in MP3 format
- High sensitivity microphone with zoom function
- Insert/Overwrite to add or insert text—without long file winding/rewinding
- USB battery recharge
- 4GB USB —up to 556 hours recording time

PHDVR0862 .....93.99

LFH0623 Voice Tracer 1GB Digital Recorder (PHDVR0632) .....79.99

LFH0617 Voice Tracer 1GB Digital Recorder (PHDVR0617) .....119.95

LFH0888/00 Voice Tracer Digital Recorder (PHDVR0888) .....134.95

LFH0895 Voice Tracer Meeting Recorder (PHDVR0895) .....299.95

LFH0867 Voice Tracer Writer's Set (PHDVR0867) .....193.95

## OLYMPUS

### VN-7000 Digital Recorder

- Store up to 1208 hours (LP) via 2GB memory
- Three recording modes: HQ, SP and LP
- Large LCD shows file locations, recording status and battery life
- Erase single/multiple files or transfer files.
- Listen to audio 25% slower or 50% faster than real time
- Index markers let you specify points in a recording or playback
- Variable Control Voice Actuator automatically sets it record when sound is detected at a pre-set level, and to stop when it drops below the threshold level.
- 4 folders/100 messages per folder
- Runs up to 39 hours on two 'AAA' batteries

OLVN7000 .....39.99

### VN-8100PC Digital Recorder

#### Step-up features from the VN-7000:

- Record over 850 hours (LP) via 2GB memory
- Records in Windows Media Audio (WMA) format
- USB 2.0 port for easy upload to PC
- Scene Select function achieves optimal recordings via preset environmental settings that can be selected based upon surrounding conditions.
- Multiple language display
- Runs up to 51 hours on 2 'AAA' batteries

OLVN8100.....59.99

### DS-2400 Digital Recorder

- Records to removable SD/SDHC cards
- Voice Activation mode
- Fast downloads via USB 2.0
- Full dot, backlit LCD for easy viewing
- Save files in high-compression DSS Pro (DS2 format) with high-quality sound and superior clarity.
- 5 folders/200 messages per folder; customizable navigation pod.
- "Erase" button to quickly erase single files or entire folders.
- Switch between "Conference" and "Dictation" settings; SP and QP recording modes.
- End one dictation and begin the next with a push of a button.
- Put index markers in passages for quick retrieval.
- Compatible with voice recognition software.
- Insert and overwrite on an existing recording file.
- Bundled DSS software for easy file management (WIN/MAC)

OLDS2400 .....Call or Log-On

### WS-600S Digital Recorder

- Store up to 540 hours (LP) via 2GB memory
- Records in MP3 or WMA formats
- Built-in stereo mic plus an external mic jack
- "USB Direct" eliminates the need for cables
- Voice Activation mode
- Six recording modes SQX, SHQ, SSP, HQ, SP, LP)
- Adjustable playback from 50%-200% (9 steps)
- Multiple language display
- Runs 25 hours on a single AAA battery

OLWS600S.....79.99

## OLYMPUS

### DM-2 Digital Recorder with Music Player

The DM-2 features built-in stereo microphone, large 2.2-inch color LCD and easy-to-navigate menu for audio recording, editing and playback of podcasts, music, audio books and textbooks. Voice confirmation guides users through the onscreen menus for setting date, time and other menu selections. It also confirms by stating the folder name as you go from one folder to another. Offers USB 2.0 interface, and internal memory storage capacity of 4GB, as well as external microSD compatibility. Bundled Olympus Sonority software (PC/Mac) lets you erase noise, adjust sound effects and divide files, to name a few options. Allows for uploading, organizing and emailing of audio files and direct downloading of podcasts.

- Large 2.2" color LCD with an easy-to-use interface enables users to accurately arrange digital files with unparalleled organization for meetings, dates and reminders. Has folders for recording music, podcasts, audiobooks, pictures and schedules.
- Built-in stereo microphone and can record and play super high-quality stereo PCM, MP3 and WMA (Windows Media Audio) files.

- Store up to 1000 hours of recorded sound. Expand capacity by up to 32GB via removable microSD cards.
- Runs 20 hours via supplied Lithium-Ion battery that can be charged using the included AC adapter or by computer via USB.

DM-2 (OLDM2).....Call or Log-on

### WS-700M Digital Recorder w/Music Player

#### Step-up features from the WS-600S:

- Store up to 1058 hours (LP) via 2GB memory
- Supports music files in MP3 and WMA formats with SRS/WOW
- Store 1000 songs and listen to them in stereo with track and artist name displayed.
- WAV (44.1 kHz/16-bit) playback mode
- Includes rechargeable battery for long battery life. Battery can be charged via USB port.

WS-700M: Available in Blue (OLWS700MB), Gray (OLWS700M), or Red (OLWS700MR).....99.99

### WS-710M

#### Digital Recorder with Music Player

#### Step-up features from the WS-700M:

- Can store up to 2160 hours (LP) via 8GB internal memory
- Store up to 2000 songs and listen to them in stereo sound with track and artist name clearly displayed on the LCD.
- Built-in FM tuner • Directional microphone
- Records and plays back in PCM format, and comes with Olympus Sonority sound editing software.

OLWS710M.....149.95

### DM-420 Digital Recorder w/Music Player

- Record/playback in MP3 and WMA; plays back in WAV
- 2GB memory plus Micro SD slot for more storage
- Ultra high quality stereo zoom microphone
- Files are PC downloadable via USB 2.0
- Runs for 50 hours with the included rechargeable battery (via USB port).
- Podcasts can be automatically downloaded
- Voice Activation mode
- Voice guidance ensures seamless operation of menu functions
- 5 voice, one music and one podcast folder/ 999 files per folder
- Large multi-language LCD (English, French, Spanish)
- Bundled software for editing, file and Podcast management

OLDM420.....149.99

### DM-520 Digital Recorder w/Music Player

#### Step-up features from the DM-420:

- Record/playback in MP3, WMA and PCM formats
- 4GB memory lets you record/store up to 1066 hours in WMA, 70 hours in MP3 and up to 6 hours in PCM format.
- Move and copy files between internal memory and the micro-SD card with ease.

OLDM520.....199.99

### LS-10 • LS-11 PCM Recorders

The LS-10 and LS-11 deliver 24 bit/96kHz studio-quality recording in the field. They can record and playback in WMA, MP3 or WAV formats onto internal memory or optional SD memory cards. They record up to 12 hours on 2 AA batteries. Equipped with high-sensitivity stereo microphone with low-noise circuitry for reduced interference and clarity. Listen back instantly to recordings via the integrated stereo speakers. At just 5.3 oz. with an easy-to-operate interface and aesthetically pleasing design, they are true 'anywhere-anytime' portable digital recorders. Otherwise the same, the LS-10 features 2GB internal memory, the LS-11 steps-up with 8GB internal memory, plus a voice synchronization function that enables automatic recording when sounds are detected at a pre-set level. It also lets users create Index marks during recording or playback in PCM mode to instantly locate specific portions of the recording that you want to hear. Last, the LS-11 also offers a level function and PEAK indicator, and File Edit function, to partially cut or divide files.

LS-10 (OLLS10).....249.99

LS-11 (OLLS11).....299.99

## Panasonic

### RR-US551 • RR-US571 • RR-US591

Featuring a built-in zoom microphone with Noise Cut function, the Panasonic's RR-US 500 series captures clear and vivid MP3 audio files to built-in 1-, 2- or 4GB flash memory. Other features include the ability to record in stereo or mono, a 21 step speed control, voice activation, LCD display and easy to navigate control buttons, built-in speaker, mic and headphone jacks. For convenience, a stand is included for easier, hassle-free recording.

RR-US551: 1GB Voice Recorder (PARRUS551) .....59.99

RR-US571: 2GB Voice Recorder in Red (PARRUS571R) or Silver (PARRUS571) .....82.29

RR-US591: 4GB Voice Recorder (PARRUS591) .....94.95

### Talkabout FV300R

- Compact, rugged and reliable with 10-mile range
- 22 channels with scanning
- 10 audible call tones
- Battery meter with audible low battery alert.
- Can serve as emergency communication device.
- Includes two quick-release belt clips.

B&H# MOFV300 .....17.95

### Talkabout FV750R CAMO

- 12-miles range, the FV750R CAMO (camouflage faceplate) adds 121 privacy codes and iVox voice activation feature allowing for hands-free operation with an optional headset.
- Auto Squelch, incremental volume control, and QT (Quiet Talk) filter which provides more clear channels.
- Also receives 11 (7 NOAA) weather channels.
- Includes two rechargeable batteries and dual battery charger

B&H# MOFV750R .....35.99

### Talkabout MH230R

- Excellent range of 23 miles
- 22 channels with scanning, 10 audible call tones, 121 privacy codes, iVox voice activation.
- Integrated flashlight
- QT (Quiet Talk) filter
- Receives 11 (7 NOAA) weather channels plus weather alerts
- Includes two rechargeable batteries.
- Charge via mini-USB charging port, drop-in charger (cradle).

B&H# MOMH230R .....40.89

### Talkabout MJ270R

- 27 mile range
- 22 channels with scanning, 121 privacy codes, iVox voice activation, integrated flashlight
- Emergency alert button
- QT (Quiet Talk) filter
- Receives 11 (7 NOAA) weather channels plus weather alerts
- Includes two rechargeable batteries.
- Charge via mini-USB charging port, drop-in charger (cradle)

B&H# MOMJ270R .....47.39

### Talkabout 8550R CAMO

- 18 mile range, 22 channels with scanning, 121 privacy codes, iVox voice activation
- Auto Squelch, incremental volume control, and QT (Quiet Talk) filter which provides more clear channels.
- Receives 11 (7 NOAA) weather channels plus weather alerts
- Includes rechargeable batteries and drop-in charger (cradle)

B&H# MOT8550R .....51.89

### Talkabout MC220R • MC225R

- 16 mile range
- 22 channels each with 38 privacy codes for 836 combinations of communication channels to choose.
- QT (Quiet Talk) function eliminates interference from other manufacturers and provides more clear channels.
- Include 2 NiMH battery packs and dual drop-in charger.

MC220R Purple (B&H# MOMC220R) .....38.99

MC225R Green Camouflage Pattern (B&H# MOMC225R) .....40.99

### Talkabout T9680RSAME

- 25-mile range, 22 channels, 121 privacy codes, iVox voice activation.
- Auto Squelch, incremental volume control, and QT (Quiet Talk) filter which provides more clear channels.
- Push-to-Talk power
- Using Specific Area Message Encoding (SAME), receive only those forecasts that pertain to your area.
- Receives 11 weather channels plus weather alerts

B&H# MOT9680RS .....52.59

### Talkabout MR350R

- 35-mile range, 22 channels, 121 privacy codes, iVox voice activation.
- QT (Quiet Talk) filter
- Receives 11 weather channels (7 NOAA) plus weather alerts
- Push-to-Talk power boost
- Integrated flashlight
- Emergency alert button; vibrating alert
- Includes two rechargeable batteries.
- Charge via mini-USB charging port, drop-in charger (cradle).

B&H# MOMR350R .....54.39

### Talkabout MR355R • MR356R

- Same as the MR350R, plus it adds 8 repeater channels an LCD backlight for use in the dark, long battery life (27 hours alkaline or 9 hours NiMH), keypad lock and talk confirmation (roger beep).

MR355R (B&H# MOMR355R) .....67.99

MR356R: Same as above plus includes mini-USB car charger and two flexible earpieces with boom mics.

B&H# MOMR356 .....75.99

### Talkabout T9650R

- 28 mile range
- 22 channels with scanning, 121 privacy codes, Auto Squelch, incremental volume control, QT (Quiet Talk) and iVox voice activation.
- Receives 11 weather channels
- Push-to-Talk power boost
- 5 animal call tones; vibrating alert
- Powered by three AA batteries or optional NiMH battery

B&H# MOT9650RC .....66.89

### DTR410

Better way for small businesses to communicate, the DTR410 offers a digital one-to-many Public Group Call, coverage up to 300,000 square feet or 25 floors and digital audio quality – loud, clear audio everywhere you have coverage.

- DTR Short Messaging Service (SMS) – allows users to text message a fleet.
- Able to call individual radios (digital one-to-one calling) and defined groups of radios as well as all DTR Series™ radios within range (digital one-to-many calling).
- Meets U.S. Military 810 C, D, E and F specifications—and Motorola standards for durability and reliability.

B&H# MODTR410 .....Call or Log-on

### RDU4100

4-watt two-way radio operates on an innovative 89 business-exclusive UHF frequencies. Enhanced audio quality, a rugged design and versatile customer programming software, make this radio an exceptional choice for any on-site business need.

- 7 VHF frequencies make signals extra-secure and exceptionally clear. Delivers increased clarity via wind-noise reduction.
- Meets military specifications for sealing against dust, wind, shock and vibration.
- Voice activation when used with accessory.
- Customer programming software allows users to perform programming functions and access new features
- Tricolor LED shows feedback of calling or monitoring features.

B&H# MORDU4100 .....279.00

### RDU4160D

4-watt two-way radio operates on an innovative 89 business-exclusive UHF frequencies. Enhanced audio quality, a rugged design and versatile customer programming software, make this radio an exceptional choice for any on-site business need. Same features as the RDU4100 except the 4160D has a keyboard with five programmable buttons and LED display.

B&H# MORDU4160D .....299.00

### RDV5100

5 watt two-way radio operates on an innovative 27 business-exclusive VHF frequencies. Enhanced audio quality, a rugged design and versatile customer programming software, make this radio an exceptional choice for all of your on-site business needs.

- 27 VHF frequencies make signals extra-secure and exceptionally clear. Delivers increased clarity via wind-noise reduction.
- Meets military specifications for sealing against dust, wind, shock and vibration.
- Voice activation when used with accessory.
- Customer programming software allows users to perform programming functions and access new features
- Tricolor LED shows feedback of calling or monitoring features.

**AUGEN****TheBook eReader**

TheBook eReader is more than a pocketable library - it also provides multimedia entertainment with video, photo, and audio capabilities, including a Read-Out-Loud text to speech function. It also features a built-in speaker, freeing you up from headphones. Download your favorite books and more anywhere Wi-Fi is available, such as at home, cafe, airports, and more...

- Store up to 1500 books (comes preloaded with 150) to its 2GB internal flash memory. Additional books can be stored to the eReader, and to SD memory cards up to 32GB in capacity.
- Increase the text size of your favorite book or periodical. Has four adjustable font sizes to suit your reading preference.
- Notepad and full qwerty keyboard for notes and text editing.
- Read in landscape or portrait view, plus zooming capabilities.
- Play your favorite music and videos with the touch of a button.
- Text-to-Sound feature allows you to listen to your favorite book out loud while the eReader is reading to you.
- Basic Web browser works well to read simple, text-centric Web sites such as Google and Wikipedia.

**TheBook with leather carrying case (AUEBA701) .....\$129.95**

**Aluratek****LIBRE eBook Reader PRO**

Digitally store and carry around thousands of your favorite books saving money, space and the environment. Aluratek's "Libre" connects to any computer with an internet connection for easy access to the most recent books that are published as well as access to free timeless classics. With room for up to 32GB of flash memory storage you can carry around thousands of

books everywhere you go. It also comes with a 2GB SD card that is pre-loaded with 100 free eBooks to get you started.

The Libre utilizes exclusive ePaper technology for an easy on the eyes, paper-like 5" display. This amazing technology makes it difficult to determine the difference between actual paper and the e-paper screen. For operation, it features content search for easy navigation between books and pages, bookmark and auto page turn, adjustable font and type size, and screen rotation support for portrait or landscape mode. Should you desire background music, the Libre doubles as an MP3 player.

- When it's time to add to your library, just connect to any computer with an Internet connection and download over one million free titles from ebooks sites like googlebooks.com and gutenburg.org
- Supported eBook formats include: PDF, TXT, FB2, EPUB, MOBI, PRC, and RTF. Picture formats include: BMP, JPG, GIF, and animated GIF.
- To recharge the Libre, just use the included AC/DC power charger or connect to the USB port on your computer using the included USB cable. ePaper Technology
- An SD card slot holds cards up to 32GB in capacity for carrying hundreds of books at once
- Offers superior battery life with up to 24 hours of non-stop reading on a single charge, or up to 2 weeks of standby power. A battery level indicator and low level warning let you know when its time to recharge.

**SONY****PRS-350PC • PRS-650BC • PRS-950SC Digital Books**

Reader Pocket Edition • Reader Touch Edition • Reader Daily Edition

Sporting a 5-inch electronic paper display packaged in a stylish chassis, the PRS-350PC Reader Touch Edition is easy to navigate with one hand, and fits into a purse or jacket pocket. Weighing just 5.6 oz., it lets you carry up to 1200 eBooks and provides up to two weeks of reading (7,500 continuous page turns) on a single battery charge. E Ink® Vizplex™ electronic paper display mimics the look of ink on paper, making it easy to read, even in bright sunshine. You can also resize the text. Choose from six adjustable font sizes to improve readability. Take freehand notes and highlight sections of text you want to revisit later, using the supplied stylus. Has two built-in English language dictionaries and 10 language translation dictionaries. Transfer eBooks and charge the reader via USB 2.0 cable. Supports Adobe PDF5, Microsoft Word, BBeb Book and other text file formats, as well as ePub/ACS4 and connection with Adobe Digital Editions. Bundled eBook Library software (Mac/PC) makes it easy to download eBooks, manage your collection, and transfer titles to the reader.

Weighing 7.9 ounces, the PRS-650BC Reader Touch Edition steps up (from the PRS-350PC) with a responsive, menu-driven 6-inch touch screen panel that enables quick, intuitive navigation, page turning, highlighting and note taking with the swipe of a finger or using the included stylus pen. Users can take handwritten notes with the stylus pen or type with the virtual keyboard. All notes can be exported and printed out for easy reference. Also adds a built-in audio player—MP3 and AAC audio files (requires headphones), expandable memory via MemoryStick PRO Duo media and SD memory card slots.

PRS-950SC

The top-of-the-line PRS-950SC Reader Daily Edition steps-up (from the PRS-650BC) with a 7-inch wide, touch screen display that provides for intuitive navigation and comfortable layout of content, including newspapers and magazines, whether you're reading in portrait or landscape orientation. In portrait mode, about 30-35 lines of text are visible, making the experience very similar to that of a printed paperback book. Offers six adjustable font sizes to improve readability, while a high contrast ratio with 16 levels of grayscale (8 levels on the other readers) ensures that text and images are crisp and easy to read. The PRS-950SC Reader Daily Edition also boasts an attractive aluminum body with an integrated cover for durability. It has a 2GB internal memory to hold over 1200 standard eBooks and expansion slots for MemoryStick PRO Duo and SD/SDHC memory cards up to 32GB to hold even more.

Last, it offers wireless access via AT&T's 3G mobile broadband network to Sony's eBook store from just about anywhere in the U.S. Book lovers will be able to browse, purchase and download books as well as select newspapers and magazines when and where they want. There are no monthly fees or transaction charges for the basic wireless connectivity and users still have the option to side load personal documents or content from other compatible sites via USB.

### Cybook Opus eBook Reader

The Cybook Opus is a 5-inch, pocket-friendly eBook with 1GB of built-in memory and a microSD expansion slot. The Opus display reads like paper, with a gentle on the eyes black and white screen that utilizes the Electronic Ink Display. The display allows for reading under a number of different lighting conditions, including direct sunlight. It has an uncomplicated interface, font size adjustment, easy content management, multi-format support, and a fast 20-second start-up time that brings you directly back to the last page you read. 70% thinner than a traditional paper back, the Opus is easily carried in a bag or purse, or even a large pocket.

- Extremely energy efficient, the Electronic Ink Display module only needs energy to change the display content. Once an image is written to the page it will remain without consuming any additional power.
- The Opus screen is viewable under a wide range of lighting conditions, including direct sunlight, and possesses a paper-like high contrast appearance. Like a sheet of paper, it can be viewed from nearly any angle, doesn't show any flicker effect and has a high resolution.
- Utilizing the Electronic Ink Display, the screen acts like a paper page made of tiny ink particles which can migrate and modify the layout of your screen in less than a second.
- Intuitive and fast interface lets you perform different actions in a second using very few buttons: Add a bookmark, go to a page; Turn a page forward and backward; Open a book, display your book list; Lookup word definition, jump to hyperlinks
- Connect Opus via USB cable to any computer and drag and drop your files—that's all there is to it.
- Opus is compatible with any host computer (Windows, Linux, Mac). You can also copy your data in a Micro SD card and plug it in the Opus Micro SD slot, the stored content will automatically appear.
- Different kinds of documents can be found on the Internet or can be generated by text editors. You can find classical books in HTML or TXT, download a user's manual in PDF, etc.
- The Cybook Opus supports EPUB and PDF files protected by Adobe encryption system. This allows Opus users to access more than 200,000 contemporary copyrighted titles.

### N5 Mobile Internet Device

More than just a mobile device, the N5 is a full-powered PC. Use the N5 to surf the web-as-you-know it: including Flash, HTML5, and all the rest of the rich web. Install anything you like. Put it in your pocket it, and go anywhere. The N5 features a superfine 4.8" WSVGA touchscreen, up to 64GB SSD (solid state drive) for storage (plus plus microSD/SDHC slot) and an Intel Atom Silverthorne 1.33GHz CPU. Has a battery life of 6 hours.

- Convenient touchscreen lets you sign documents, draw charts, take handwritten notes — and, of course, provides super-intuitive navigation of web pages.
- Less than a pound, the N5 is so small and light, you can conveniently carry it in your hands anywhere.
- Integrated camera and mic make Skype video-conferencing easy to do almost anywhere. Make videos and upload them to YouTube immediately — even stream live video onto the Web while on the go.
- With its full version of Windows 7, you can run iTunes or any other preferred media player. Easily navigate through your music and movie library with the ease of a fingertip, and be able to download and see your favorite movies or listen to music from iTunes, or streaming sites like Songza or Rhapsody.
- Capable of playing 720p HD video in a variety of formats—and you can even stream your favorite new shows from Fox, CBS, Hulu, etc., easily and smoothly from anywhere, whether the couch or your bed. With an optional output cable, you can even hook up the N5 to your HDTV .
- The "Just On" mode lets you boot up from sleep to Windows in under 5 seconds. With 150 hours of standby time, you rarely have to worry about having to find an outlet before your battery runs out.
- Also includes USB 2.0 interface, earphone jack, optical joystick and internal speaker/mic.
- With optional GPS, you can use your favorite navigation software—including Garmin, Google Earth or Microsoft Street and Trips. No need to switch back and forth between your car and handheld GPS.
- With integrated 3G HSPA (N5 PRE 3G), you're always online. No dongles required, and no searching for a Wi-Fi hotspot. (Requires separate data subscription from a compatible wireless carrier.)

E-READING. E-ENHANCED.

### Executive Jacket

Luxurious leather case, it has solid front and back construction with a plush grey interior for maximum protection. Elastic tabs are included along the interior spine of the jacket for ear bud cable management. The jacket allows access to all ports and buttons even when closed. It utilizes a four-point mounting system to hold the iPad in place. Closure strap includes an ergonomic handle that allows you to comfortably hold the device, freeing the other hand for navigation on the iPad screen. It also acts as a bookstand, enabling use in landscape orientation. There are interior pockets for storage of notes, business cards, and other essentials. Available in Black (MEPAD1EP1GLB), Jade Green (MEPAD1EP1GLJ), Marbled Red (MEPAD1EP1GLR), Mocha Brown (MEPAD1EP1GLM), Pebbled Fuchsia (MEPAD1EP1GLF), Pebbled Purple (MEPAD1EP1GLP) .....**\$59.99**

### Latitude Jacket

Made from ripstop nylon with a grey polar fleece interior that provides generous screen and iPad protection. The double closure zipper allows access to the charging port without removing the iPad from the jacket. The jacket folds back and zips closed backwards for comfortable use. There is a large exterior zipper compartment that contains a pocket that is sized for the iPhone and additional pockets for accessory storage. A rear exterior pocket allows for additional accessory storage. Ergonomic elastic hand strap on the front interior allows comfortable and stable single-handed use of the touch screen. There are elastic tabs included along the interior spine of the jacket for ear bud cable management. An eyelet on the top left corner allows for easy use of ear buds while the jacket is closed. Available in Black (MEPAD1Z1CB), Navy Blue (MEPAD1Z1CNB) and Red (MEPAD1Z1ZCR) .....**\$49.99**

### Method Portfolio

Designed with a sleeve that holds the iPad in place while allowing for charging. The portfolio doubles as a wallet or purse, with 4 credit card pockets, clear ID window, and a business envelope or boarding pass pocket. There are 2 leather pockets to fit an iPhone or BlackBerry with a magnetic closure strap for added protection. Other personal items such as keys, change, etc. can be secured in a zipper accessory pocket, and pens are secured in a pen loop. There is an expandable storage pocket sized for a standard manila folder and the rear interior accommodates a standard-sized pad of paper. In Black (MEPAD1MP1GLB) or Mocha Brown (MEPAD1MP1GLM) .....**\$119.95**

### Flip Jacket

The Flip Jacket is made from durable canvas that is treated with ScotchGuard to repel liquids and dirt, and is accentuated with a leather spine and leather trim. It has a soft, cream-colored microfiber interior that provides maximum iPad protection. The jacket has a four-point mounting system that utilizes lower leather pockets and upper elastic straps to securely hold the iPad in place. There is an ergonomic elastic hand strap on the front interior that offers comfortable and stable use of the touch screen. Elastic tabs along the interior spine of the jacket provide ear bud cable management. (MEPAD1FL1CB) .....**\$49.95**

### Page Sleeve

Designed to protect the iPad from dust, scratches and dings, it is made from luxurious leather exterior with a padded grey microsuede interior. The sleeve is designed to fit a bare iPad placed in either direction. When placed downward, the iPad can be charged while in the sleeve. Closure strap ensures iPad won't fall out of the sleeve. In Black (MEPAD1PS1GLB), Mocha Brown (MEPAD1PS1GLM) or Pebbled Purple (MEPAD1PS1GLP) .....**\$59.99**

### Leisure Jacket

Protects the iPad against sand, dirt, and moisture. The Leisure Jacket is made from nylon with a high-density foam frame and a read through clear vinyl cover that allows full functionality of the touch screen. The protective double closure zipper allows access to the charging port without removing the iPad from the jacket. The iPad can be flipped over for additional screen protection while traveling. A large exterior zipper compartment contains pockets for an iPhone and accessories. In Black (MEPAD1L1CB) or Lime Green (MEPAD1L1CLG) .....**\$49.99**

### Platform Jacket

Made from luxurious rich leather with solid front and back construction and a plush grey interior for maximum iPad protection. The closure strap acts as a bookstand that enables use in hands-free portrait orientation. The closure strap also includes an ergonomic handle that is lined for comfort to allow user to comfortably hold the device, freeing the other hand for navigation on the screen. A four-point mounting system holds the iPad in place. There are integrated elastic tabs along the interior spine to ensure effective ear bud cable management. **L5 Universal Remote**

With the L5 Universal Remote, you have the power of a whole coffee table full of remotes with the elegance and simplicity of your iPad, iPhone or iPod touch. Out with clutter and confusion, and in with the sharp, brilliant display, Multi-Touch interface, versatility and portability. The L5 works without WiFi, external power, or batteries. Take it anywhere you want. Use it to control your TV, cable box, DVD, DVR, and most devices that come with an IR remote. Plug in the accessory and tap a button to download the free app. Quickly and easily design your first custom remote by dragging and dropping any buttons you want, then 'assign' a signal to each by pressing the corresponding button on your old remote while pointing it at the L5 Remote. The L5 Remote intelligently analyzes the signal and stores it in the iPad, iPhone or iPod Touch. You can program all your remotes in just minutes. Program up to 100,000 buttons and 1,000 different remotes. (L5L5R) .....**48.95**

### S5 Mobile Internet Device

The S5 is a compact, pocketable computer that weighs less than a pound. It has a 4.8" high resolution (1024 x 600) touch-screen capable of displaying 720p HD video at near-native resolution. It can run for up to 6 hours on a single battery charge. It can also sleep for up to 200 hours per charge, and be ready to use from sleep in as little as five seconds. It features 802.11b/g Wi-Fi, Bluetooth 2.0+EDR and an integrated GPS system that lets you know exactly where you are in the world.

Powered by a 1.33GHz Intel CPU, it has 1GB of RAM and comes with a 32GB SSD drive.

Running on Windows 7 (installed), the computer's interface is enhanced by Viliv's Cube UI overlay which allows you to launch your favorite programs from easily-accessible bubbles for quick access. You can access up to 180 different applications in this manner. An on-screen keyboard allows you to type with ease. It features haptic feedback, which provides physical confirmation of a button press via vibration—making touch screen typing errors a thing of the past. In addition to touch selection of items, a four-way jog wheel and clickable mouse buttons are present for cursor control. The system also provides dedicated keyboard and menu buttons.

- With full version of Win 7, you can run iTunes or any other preferred media player. Easily navigate through your music and movie library, and be able to download movies or listen to music from iTunes, Amazon, or a streaming site like Songza.
- Play 720p HD video in a variety of formats, and stream shows from Fox, CBS, Hulu, and others. With the optional TV output cable, you can connect to an HDTV for large screen viewing.
- On-screen keyboard with haptic feedback provides a feeling of accuracy. There is even a split keyboard configuration so you can still hold the device comfortably without losing usability. And with integrated Bluetooth 2.0+EDR you can always use an external keyboard and mouse (optional) if you prefer.
- Unique Cube UI (User Interface) is designed to mimic the ease of use of a PMP with the full capabilities of a PC. With 5 categories to choose from and 36 "bubbles" to assign tasks to, navigation is a snap and organizing frequently used programs a breeze.
- Use your favorite navigation software—including Garmin, Google Earth, or Microsoft Streets and Trips.
- "Just On" mode lets you boot up from sleep to Windows in under 5 seconds. With 200 hours of standby time, you can access your data quickly and easily at the push of a button and rarely have to worry about having to find an outlet before your battery runs out.
- A high capacity battery and efficient power consumption allow up to 6 hours of movie playback.

### S10 Convertible Multi-Touch PC

Measuring 10.23 x 7.28 x 0.67" (wLH) and weighing just 2.67 lbs., the S10 strikes the perfect balance between usability and portability. An unparalleled tool for mobile productivity, it features a swivel, multi-touch, touch screen and runs Windows 7 seamlessly with its Intel Atom 2.0GHz CPU and solid-state hard drive. The multi-touch display lets you interact with the device by placing up to 3 fingers directly onto the surface of the screen and navigating using the easy gesture controls built in to Windows 7. Handwriting recognition built into Windows 7 allows you to use a stylus, or your fingers, to sign documents, draw charts, take handwritten notes—or, of course, to provide super-intuitive navigation. Swivel the screen to show something to a colleague, or twist-and-fold the screen down and you have an extremely portable slate-style device with excellent battery life!

- 10.1" HD LCD with 1366 x 768 resolution—superb for watching movies, reading e-books/newspapers and surfing the Web in full resolution without the need for constant scrolling.
- Has a run-time of 7 hours doing nonstop video playback at 80% brightness, and 10 hours under ideal conditions.
- 4-second wakeup-from-standby under Windows 7. Need to take a quick note or show a webpage during your meeting? Pop open the S10 and you are working straight away. And with such fast wakeup, you won't hesitate to put the S10 back into standby—making the effective use time of one charge even longer.

**S10** Convertible Multi-Touch PC.....**Call or Log-on**

- The S10 has the ability to load files simply by connecting it to another PC using a USB cable and running the integrated file manager software. This makes it super simple to prep the S10 for grab-and-go use. Load all your important documents, music, and movies in a matter of minutes.
- Built-in webcam and MIC lets you use Skype; make videos and upload them to YouTube; or stream live video onto the Web
- Also features two USB 2.0 and one mini-USB port, SDHC slot, camera, Bluetooth, VGA output, A/V output (with optional cables), earphone/MIC combo port, and internal speaker.

### ARCHOS 28

#### Android Pocket Internet Tablet

The ARCHOS 28 internet tablet is a Wi-Fi connected Android™ device offering compact form factor with a 2.8 inch touchscreen and a wide range of features such as video and Internet browsing. It also offers tons of applications downloadable from AppSLib, as well as a music application every player of this size deserves.

- Pocket-sized connected tablet with a smooth user interface, 3D graphical accelerator and Wi-Fi connectivity.
- Accelerometer and a graphical accelerator (3D OpenGL ES 2.0) exploit Android 3D capabilities such as live wallpapers, transition effects and 3D games.
- Via AppSLib store—the Android app market place for advanced devices—you can download fun 3D games and cool applications such as online music players (Deezer, Mewbox & Napster) or chat to stay in touch with your friends (Ebuddy). As long as you have a Wi-Fi connection, you can choose to fill your device with all the apps that suit your lifestyle.
- High-speed processor allowing fast Internet browsing and a smart email application to stay in touch.
- Supports all the popular video formats (MPEG-4, H.264, WMV/VC1 and Motion JPEG in VGA resolution).
- Open the Gallery application and show your latest vacation photos to your friends or even share them via a wireless network.
- Plays all the music formats plus adds 3D cover animation support and the ability to add a mini music widget to the home screen (in order to control your music at any time).
- Comes with a full pack of connected apps such as a web browser and email application. The 5 home screens of the Android user interface allow for advanced personalization: icons can be placed, moved or erased with just a flick of a finger.

AR284.....**Call or Log-on**

### ARCHOS 32

#### Android Internet Tablet

Stepping up, the Archos 32 features a 3.2" touchscreen, built-in video camera, and the widest audio & video format support ever seen on a portable device (even HD in 720p). Shoot videos wherever you are. You can also take photos by making a quick tap on the screen to switch between the two functions.

- Easily adjust the page size to an article by double-tapping on it or rotate the ARCHOS and the screen will flip into place to display the entire page's width. There's also an email application so you can stay in touch with all of your friends.
- Plug your mobile phone equipped with 3.5G and Bluetooth to the Archos 32. This will give you easy access to Internet directly on your device anytime and anywhere. There's no need to pay an extra fee when you already have a data service plan.

AR32A.....**147.00**

### ARCHOS 43

#### Android Internet Tablet

An incredibly thin device with beautifully rounded lines, the Archos 43 steps up with a large 4.3" touch-screen and G-sensor. The touch-screen guarantees an uncompromised viewing experience for movies and TV shows in HD quality. Has a built-in 720p HD camcorder and HDMI output. Weighs only 4.6 oz. and is .39" thin.

AR438.....**Call or Log-on**

## ARCHOS

### ARCHOS 70 Internet Tablet

The Archos 70 will redefine the way you browse the web and enjoy HD multimedia. With the latest version of Android™, enjoy fast web surfing and all your favorite applications, including games with 3D graphic acceleration (rendered with its 3D hardware accelerator) or a soothing eBook viewer. Features a powerful 1GHz processor, integrated 802.11n Wi-Fi, and a 7" multi-touch screen with an 800 x 480 resolution to give you the same web experience as on your PC. Plus, all your apps, the Internet, video chat, your photos, music and videos (8GB or 250GB of storage) actually fit inside your bag or your briefcase.

- Slim and light design—only 11 oz and 0.4" thin.
- Stand it up on a table with the 3 position built-in kick stand and enjoy its brilliant 16-million-color 16:9 display to surf the web, view your HD videos or your photos. Or using an optional accessory, pop it onto the headrest of your car and keep the kids in the back seat entertained for hours.
- Built-in webcam microphone allow long distance video chats with your family and friends using Fring or take pictures and upload your profile on Facebook.
- Compatible with an optional keyboard and mouse for optional comfort.
- View web pages in portrait mode, read eBooks and news articles or flip the Archos 70 to a horizontal orientation and view streaming videos from the various video sharing sites.
- Has Samba and UPnP protocols so you can play your movies, videos, and photos—but these files are really located on your computer in another room. No need to store everything. Your files fly through the air over Wi-Fi.
- Plug your mobile phone equipped with 3.5G and Bluetooth to the Archos 32. This will give you easy access to Internet directly on your device anytime and anywhere. There's no need to pay an extra fee when you already have a data service plan.

## Aluratek cinepal High-Definition Portable Media Player

Cinepal is an ultra-portable solution for all of your various media. It lets you watch videos, view photos, read eBooks, and listen to music most anywhere. The 8.9" (1024 x 768) 720p LCD display is perfect for viewing movies, photos and eBooks. Cinepal also plays MP3 and WMA files and has a built-in lithium ion rechargeable battery for up to 6 hours of continuous use.

To provide full access to your favorite movies, Cinepal features DivX DRM support, which allows for the download of DRM-encrypted movies and the ability to watch them in HD. In addition to DivX, Cinepal also supports HD video in AVI, VOB, DAT, MPG, MPEG, H.264, MKV and RM/RMVB.

Supported formats for music are MP3 and WMA, while photo supports JPEG and MPG. For storage, it offers 4GB of built-in memory, an expandable SD/SDHC memory card slot, and a USB flash drive input.

**ALAPMP100F**.....**149.99**

## MEMORYKICK MemoryKick Si Media Center

The Memory Kick Media Center is an advanced portable photo backup, photo viewer, video viewer, MP3 player and data backup solution. It allows you to transfer pictures from your digital camera's memory card at speeds of 40MB/sec. This lets you download a full 1GB memory card to the hard drive in under 3 minutes. It is compatible with most types of memory cards, and features a 3.5" color LCD screen for image review.

Download images to the Media Center or copy images from the Media Center to a memory card. You can also copy images directly from one card to another. In addition to photo playback, the Media Center can play music and videos. It supports MP3, WMA, AAC, Audio CD, and uncompressed WAV in MS-RIFF audio files.

Supported video formats include MOV, AVI, WMV, MP4, Xvid, and Motion JPEG. Accommodates up to 4 cards/devices simultaneously; CF, USB Device, Memory Stick, and other memory cards.

## Authorized Reseller

### iPod shuffle The World's Smallest Digital Music Player (2GB)

Featuring clickable "ring" buttons and VoiceOver technology, users can easily navigate their music and playlists without ever looking at their iPod shuffle. The wearable iPod shuffle has an all-aluminum enclosure with a built-in clip and comes in five brilliant colors. It also offers over 15 hours of music playback on a single battery charge.

- VoiceOver button lets users hear the name of the song playing, and to switch between songs, playlists or Genius Mixes. VoiceOver speaks 25 different languages and even alerts you when their battery needs charging.

- Clip it to your shirt, jacket, workout gear, backpack, or purse strap, and it stays put — whether you're running an errand or running around the track.

In Blue (APIPS2BL), Green (APIPS2G), Pink (APIPS2P), Orange (APIPS2O), Silver (APIPS2S) .....**49.00**

### iPod nano

With Multi-Touch Interface (6th Generation)

New Multi-Touch interface lets users navigate their music by simply tapping or swiping a finger on the display. Nearly half the size and weight of the 5th generation, the newest iPod nano features a polished aluminum and glass enclosure with a built-in clip, making it instantly wearable. It also features Genius Mixes, the ability to create and edit playlists, a built-in FM radio with live pause and up to 24 hours of music playback on a single battery charge. Last, clip it onto your workout clothing, touch your music and start your workout. A built-in pedometer makes it easy to track your steps and also supports Nike + iPod, giving you the ability to track runs and workouts.

- Holds up to 2,000 or 4,000 songs in 128-Kbps AAC format
- Holds up to 7,000 or 14,000 iPod-viewable photos
- Give it a shake and it shuffles to a different song in your library.
- Comes in sleek anodized aluminum in seven bright colors,
- Displays album art and photos, on a 1.5" (240 x 240) display

- FM tuner lets you see the names of songs and artists.
- With iTunes Tagging and Live Pause, listening to the radio will never be the same.
- Built-in 30-pin connector lets you plug iPod nano into a car stereo system, speakers at home, and many others.

### iPod touch State-of-the-Art Fun (4th Generation)

Packed with incredible new features including stunning Retina™ display, FaceTime video calling, HD video recording, Apple's A4 chip, 3-axis gyro, iOS 4.1 and Game Center—all combined in the thinnest and lightest iPod touch ever. Whether playing games, watching video, browsing the web or flicking through photos, the stunning 3.5-inch 960 x 640 widescreen Multi-Touch Retina display makes everything look even more incredible.

- Apple's A4 chip provides exceptional graphics performance along with long battery life. Along with the Retina display and 3-axis gyro, it makes games the best they've ever been on any mobile device.
- Offers up to 40 hours of music playback and 7 hours of video playback on a single battery charge.
- Front-facing camera and mic let you make FaceTime video calls over Wi-Fi. With just a tap of the FaceTime app, you can call other new iPod touch or iPhone 4 users.
- Rear-facing camera on iPod touch is perfect for 720p HD video recording. Easily capture HD video wherever you are and share it via email, MobileMe and YouTube. With the optional iMovie app, users can combine movie clips, add dynamic transitions and themes and include photos and music—right on the iPod touch.
- Voice Control giving you the ability to control music playback with spoken commands. You say it. iPod touch plays it.
- Voice Memo lets you record any audio you want using the supplied Apple Earphones with remote and mic or an external mic.

### R0 8GB Flash MP3 Player

Featuring a sleek, anodized aluminum body, the R0 puts instant entertainment in the palm of your hand with its 2.6" LCD screen and extensive file support. Engineered with DIVX Playback — downloading videos is a breeze. Easily move files from the desktop to the R0 via its built-in microSD memory card slot. Comes with an FM tuner as well. Samsung's Digital Natural Sound engine (DNSe) compensates for the limitations of portable devices by enhancing the sound and making music come to life like no other MP3 player can.

In Black (SAR08B), Silver (SAR08S) or Pink (SAR08P) .....**99.99**

### R1 8GB Flash MP3 Player

The R1 offers a responsive, clear 2.4-inch TFT LCD touch screen with "drag and drop" that allows you to easily enjoy audio/video files and libraries with the swipe of a finger. Keeping pace with your busy life, it has video, music and photo playback. Incredibly small, the R1 has plenty of space for video content and also packs in an FM radio and recorder as well as as a voice recorder and can be paired with a Bluetooth enabled headset.

In Black (SAR18B), Silver (SAR18S) or Pink (SAR18P) .....**149.99**

### Q2 16GB MP3 Player

Light-up touch-pad controls let you intuitively navigate through the menus on the 2.4" LCD. 16GB internal flash memory lets you store up to 4,000 songs. It is also an FM tuner, photo and text viewer, voice recorder and more. Enjoy up to 50 hours of audio playback and up to 4 hours of video on a single battery charge.

- LCD display shows video, images and text files as well as a mood interpretation of your music.
  - DNSe engine brings compressed MP3 files back to life by reproducing the stereo sound your music was originally recorded in.
  - Connect to either a Mac (UMS) or Windows (MTP) system, and choose between jukebox or drag-and-drop transfer modes.
  - Supports MP3, Flac, OGG, WMA audio, MPEG4 and WMV video
- In Black (SAQ216B), Blue (SAQ216BL) & White (SAQ216W) .....**119.00**

### P3 Widescreen Portable Multimedia Player

Just 0.39" thin, the P3 squeezes a 3" scratch resistant full 16:9 LCD touchscreen, video (also supports DIVX) and audio player, photo album, FM radio/recorder, voice recorder, and a portable storage drive in one compact device. Can also be paired with a Bluetooth enabled phone using the mic to answer calls through the player.

- With true haptic feedback, the P3 reacts with a variety of physical sensations to every gesture for a more intimate experience.
- Music Hot Touch Key to instantly access favorite music features and selections without needing to cycle through multiple menus.
- Samsung's DNSe 3.0 sound enhancement technology ensures listeners experience the most natural, full-bodied sound possible.
- Zoom, rotate or create a slide show with your photos. For text, you can scroll, adjust font size, or let it do the reading for you.

## X-Series Walkman Video MP3 Players

With a stunning 3" wide OLED touch-screen display, digital noise cancellation and wireless connectivity, the X-Series takes portability to the next level. Equipped with built-in Wi-Fi, you can connect to the internet and access your favorite websites. You can also subscribe and receive podcasts directly.

S-Master digital amplifier and Digital Sound Enhancement Engine (DSEE) fill in the high tones that are lost during file compression, enhance bass and minimize distortion. A unique digital noise canceling (DNC) software engine blocks ambient noise, while providing a high-quality audio experience. Travelers can turn on the noise canceling feature and get peace and quiet even without listening to music. As an added bonus, they come with 100 free music downloads from Sony Music.

- 3" OLED display delivers a picture with extremely high contrast, exceptional color reproduction and a rapid response time.
- A wide 180° viewing angle gives consistent tone and stable contrast, as well as a wide range of color reproduction and a high contrast ratio.
- Utilizes both touch panel operation and a hybrid button system to improve upon the navigation experience.
- Supports multiple high-quality video formats including AVC (H.264/AVC), MPEG-4 and WMV giving you more freedom to download the kinds of video that you want.
- Included 13.5mm EX headphones deliver premium noise cancellation, along with balanced and rich sound.
- Long-lasting battery lets you listen to music for up to 33 hours or watch 9 hours of video before you need to recharge.

## iLuv i166

9" Portable Multimedia DVD Player

Combines a built-in iPod dock capable of playing video and audio files directly from your iPod, and multi-format DVD/CD playback capabilities. Additionally, its widescreen display doubles as a digital photo frame; view images from either the built-in USB port or the SD/MMC memory card slot. (ILPDP19) .....**199.99**

## ALESIS Jam Dock

Jam along with your iPod! JamDock is the cleanest way to integrate your iPod into your practice or live music setup. You can connect and mix in nearly any instrument including electronic drums and send your mix to the stereo outputs and headphone output. JamDock is the first dock for iPod that was designed specifically for musicians. Nearly every musician has an iPod, but until JamDock, there has never been an easy and clean way to integrate your iPod into your practice or stage setup. JamDock enables you to mix your iPod and your instrument and practice with headphones, amp, or PA system. You can also use your iPod to play backing tracks live. JamDock has two 1/4" inputs that work with both line-level sources and high-impedance guitars and basses. The inputs sum to mono when there is only one side present, so you'll hear your guitar on both sides of your headphones. A pair of 1/4" outputs feed your amplifier or PA system, and a 1/4" stereo output feeds your headphones.

**Jam Dock (B&H# ALJD)** .....**99.00**

## iRecord Personal Media Recorder

The iRecord is a portable media recorder for portable USB storage devices, iPods and PSPs. Just connect the video source to the composite or S-Video connections, plug in the USB device and hit record and the media will be recorded to your device. The iRecord's H.264/AVC and AAC encoding give 3 hours of A/V recording time on just 1GB of storage space.

- Records directly to audio and video iPod, PSP and any USB 2.0 mass storage device
- Records from any analog video source including DVD player, TV, TiVo, VCR, or any cable/satellite set-top box
- Supports NTSC, PAL, and SECAM video standards
- Encodes high-quality H.264 video with AAC audio at 320 x 240
- Encodes music using MP3 encoding standard; supports both Windows and Macintosh iPods
- USB card readers let you use many removable storage devices with iRecord (SD, MMC, Memory Stick, CompactFlash etc.)

**iRecord (B&H# STIRECORD)** .....**189.00**

## SUNLING Portable Solar Panels

Portable, flexible, foldable and durable, SUNLING solar panels generate enough power to charge MP3 and portable DVD players as well as cell phones, rechargeable batteries and portable games. Excellent choice for excursions that require lightweight, flexible, durable portable power. Ideal for hiking, camping, sporting events, on campus and at the beach.

## GLOBAL SOLAR

- Compatible with almost anything that is capable of being charged through a standard cigarette lighter adapter.
- PowerFLEX solar technology allows the panel to be folded and carried. Panel weighs less than 2 lbs.
- Can also be mounted to flat or curved surfaces
- Weatherproof and UV resistant

## Swipelt Secure Credit Card Terminal

Swipelt works with the iPhone and iPod touch. Whether your store is a brick and mortar establishment or your car, Swipelt allows you to process payments from customers. All swiped credit card transactions are encrypted before they are passed from the card reader to your iPhone or iPod touch. The system allows you to continue using your existing merchant services account and bank's credit card processing service or gives you the option to sign up with a new merchant service provider. Swipelt supports the most popular cards: Visa, MasterCard, American Express, and Discover. The terminal also charges your touch or iPhone when using an AC adapter or other USB power source, while the security slot securely locks the reader. (MASCCT).....**Call or Log-on**

## ezVision Video Glasses

ezVision offers you a 50" or 60" virtual screen that fit like a pair of glasses. Now you can watch TV in privacy. Whether you are on a plane or you're a night owl and don't want to disturb your partner, ezGear's ezVision allows you to watch in complete privacy. Ultra light-weight with built in earphones you can enjoy movies, music videos, cartoons, and podcasts.

- Simulates a 50" or 60" TV screen with a 4:3 aspect ratio when viewed at a distance of 8.5'.
- Runs up to 5 hours on a Lithium Ion rechargeable battery pack
- The battery pack is just 1/2" thick and includes your power switch and volume control.

- Built-in quality earphones with an integrated earphone holder and a coiled cable to keep the wires neat.
- ezVision Video Glasses are completely compatible with your iPod. For iPod video, a small adapter cable is all you need. For the new iPod Touch, iPod Classic, or iPod nano, you need and iPod Composite A/V Cable to connect to the ezVision.

**ezVision x4 64" Video Screen Simulator Glasses:** Includes 2 customizable nose pieces, rechargeable battery, A/C charger, RCA and iPod video cables (EZV4VG) .....**349.95**

**ezVision Video iWear 50" Video Screen Simulator Glasses:** Includes 2 customizable nose pieces, rechargeable battery, A/C charger, RCA and iPod video cables (EZV5VG) .....**239.95**

## Cinemizer Plus Head Mounted Video and 3D-video Eyewear

The Cinemizer combines high-resolution LCD screens with individual diopter focus adjustment (-3.5 to +3.5D). This means even if the user wears glasses the screen image can be focussed for crystal-clear viewing. The resulting image is optically tuned to appear as virtual 45-inch screen, as viewed from six feet away.

- Ability to override the built in headphones and plug in third party models. This means that users that have high-end audio equipment can use them with the Cinemizer plus.
- 3D mode enables stereoscopic viewing of 3D content. Content that is produced in side-by-side 3D format can be displayed from any video source, then the views are split for left and right screens. The resulting experience is a rich and immersive 3D image.
- The Cinemizer is "Made for iPod" which means it is designed specifically to work with all iPods that have video. The Cinemizer also works with both the original and the 3G iPhone.

**Cinemizer Plus (B&H# ZECVPG)** .....**389.95**

## Mikey Miniature Recording Microphone for the iPod

Connect Mikey to your player's dock connector and you're ready to start recording CD-quality audio. Features a 230° rotating design and 7 angle adjustments for recording in most any setting. Two Blue capsules and 3 gain settings allow you to capture clear, stereo audio. Has a line-input, USB pass-through and headphone adapter.

BLMIKEY2 .....**99.00**

## iJet Wireless RF Remote Receiver for iPod

The iJet lets you control your iPod from up to 150' away. The strong RF signal created by the remote travels through walls with little reduction in signal strength allowing you to control your music throughout the house.

- Compatible with all iPods with dock connector
- Recessed buttons prevent misoperation when the remote is in your pocket.

- Powered by powered 7-year lithium batteries

- Includes RCA cable and belt clip

**iJet:** In White (ABIJBCW) or Black (ABIJBCB) .....**29.95**

## iPhone Charging Case

Safely secure your iPhone 3G, plus double your talk, video, music, or Internet time as well. This durable leather case fits snugly around your phone, while the 1800mAh lithium-ion battery provides continuous power even when you're away from home. The on/off switch allows you to charge your phone when you want and the LED power status light lets you know where your power levels are at. The camera lens hole ensures that you never have to take you're your iPhone out of its case. Certified by Apple as, "Works with iPhone", the iPhone Charging Case gives you the best of both worlds - protection and power in one. (MOLCCIP).....**69.95**

## iPhone 3G/3G S Accessories

## Zacuto Zgrip iPhone PRO

The Zgrip iPhone PRO is an effective solution for capturing smooth and stable professional quality video with your iPhone 3GS. The system's space-age design resembles a robotic arm that holds your iPhone securely with its adjustable, quick release handgrip. The grip fully articulates and features levers that allow for minute adjustments to help you get exactly the shot you want from any angle.

To use the Zgrip, simply place your iPhone into the cradle, snap the cradle onto the grip, and begin shooting. Capture previously unattainable smooth and steady video. Includes lifetime warranty.

B&H# ZAZZGIP .....**280.25**

## mophie Juice Pack Air

The Mophie Juice Pack air extends your iPhone's 3G & 3G S battery life and protect your investment at the same time. It provides you with up to an extra 4.5 hours of talk and Internet time, up to 27 hours of audio playback and up to 9 hours of video playback. The juice pack air is designed to drain first, so once it runs out of power, your iPhone's battery will still

be charged and ready to keep going. And, with access to all ports and features, such as the built-in camera lens, you can leave your iPhone in this stylish case at all times, even when you're not using the battery.

For iPod and iPhone (*KIK501*) ..... **Call or Log-on****SONY ALT-SA31IR Wireless Multi-Room Music System for iPod and iPhone**

The LT-SA31IR provides an easy way to listen to your music across multiple rooms without the hassle of unsightly wires or custom installations. Powered by Sony S-AIR Digital Wireless technology, it lets you transmit your favorite music from your iPod or PC to remote speakers, or even to your existing home stereo setup. Enjoy superb sound quality from the dock (which automatically charges your device while you listen), and two included high-output premium speakers.

- The system can be paired with up to 8 additional S-AIR™ enabled premium and/or socket speakers that allow you to transmit high quality audio from your iPod to multiple rooms in your home.
- Supplied Digital Wireless remote gives you convenient control of the system's primary functions. In addition, the remote features an LCD display which lets you view song metadata including song title, artist, and album.
- The system can transmit separate signals to each included S-AIR enabled premium speaker, allowing you to listen to the music stored on your iPod while someone else listens to their favorite radio station in another room.
- Features a one-line fluorescent display for communicating unit functions and displaying song information, such as artist, title, and album.

Portable Speaker Systems

## harman/kardon

## Go + Play Micro High-Performance Portable Loudspeaker Dock for iPod/iPhone

AC- or battery operated, the Go + Play Micro features dual high-frequency and midrange transducers that produce rich, full spectrum sound with unexpected clarity and precision, while a high-excursion, low-frequency driver adds exceptional bass punch. Computer-optimized equalization (COE) improves system dynamics, and optimized compression topology (OCT) ensures clear, low-distortion sound at high output levels.

In addition to docking your iPod or iPhone, you can connect an iPod shuffle, iPad, CD player or computer via the 3.5mm line input to to enjoy the rich sound. S-Video output for passing through video or photo slideshow stored on a docked iPod/iPhone to a TV and a USB port for linking the docked iPod/iPhone to a computer for syncing to iTunes. The futuristic St. Louis arch-like design doubles as a stainless steel carrying handle. Included IR remote runs speaker operations and most iPod/iPhone functions from up to 15 feet away. (HAGNPMDSIPB).....**299.00**

## JBL ON TIME MICRO • ON TIME 200P

## Speaker Docks for iPod/iPhone with Clock Radio

With JBL's On Time Micro, your iPod, iPhone or other MP3 player sound great any time. But in the morning, wake up to the music that you know – with or without the help of up to seven independent alarms. Features Legendary JBL® sound quality with Phoenix transducers, computer-optimized equalization and optimized compression technologies. For convenience, has an easy-to-read LCD display with automatic dimming and easy-to-use touch controls.

The On Time 200P is a compact, high-performance time machine and sound center. It produces clean, powerful sound while providing time-keeping, alarm and radio features. Just a touch increases or decreases the volume. Another touch and you choose iPod, radio or auxiliary. It even remembers your source and the last volume setting, even after the system shuts down. The navigation buttons provide instant access to the menus. Navigate the intuitive menu to change settings such as language, alarms and snooze. Radio functions (e.g., channel presets) are simple. The large backlit LCD permits easy viewing and menu navigation. Automatic dimming sets the correct brightness level in any room environment.

## JBL ON STAGE 200iD

## High Performance Loudspeaker Dock for iPod and iPhone

The 200iD is compatible with all docking versions of the iPod, even the iPhone. The aux in jack allows you to use your other portable media players as well. The remote control allows you to control the action anywhere in the room while your docked iPod is charged. Your iPod's music will come to life with JBL's proprietary Phoenix Transducer technology. The Phoenix drivers deliver both powerful lows and sizzling highs by utilizing a slipstream port design while the OCT (Optimized Compression) guarantees crystal clear sound even at high volume levels. Connect the USB cable to your computer for full compatibility with iPod and iTunes. (JBSDOS200).....**149.95**

## JBL ON STAGE IV

## High Performance Loudspeaker Dock for iPod and iPhone

The On Stage IV is a complete sound system for your docking versions of the iPod, including the iPod touch, iPod nano G3 and the iPhone. A stereo mini jack connection also allows you to enjoy high-quality audio from a variety of other devices such as MP3 and CD players, desktop computers (all platforms), satellite radio, and laptops. Imagine a total audio system in one place, with no extra wires running across your table or desk. Digital amplification and DSP (Digital Sound Processing) gives you great sound. Evercharge topology charges iPod even if unit is switched off. Has a USB input, allowing you to easily connect to iTunes to sync your latest favorite music to your iPod or iPhone - all without having to remove it from the dock. When using your iPhone with the On Stage IV, you can still receive calls even while you're listening to music. It will interrupt your music to let you take your call and then seamlessly go back to playing your tunes when you are done. (JBSDOSM4IP).....**149.95**

## JBL ON STAGE MICRO III

## Portable Loudspeaker Dock for iPod/iPhone

Sculpted with swooping high-gloss pieces along with a dramatic see-through cradle that is backlit, the On Stage Micro III is the ideal travel partner. Weighing less than a pound, and compatible with all docking versions of the iPhone, iPod, Touch, iPod Classic, and iPod Nano, the AC or DC-powered On Stage Micro III delivers superior sound quality through the use of four proprietary Odyssey transducers. Made of aluminum these drivers deliver full-range sound (70Hz - 20kHz) sound. USB input allows you to easily connect to iTunes to sync your latest favorite music to your iPod or iPhone - all without having to remove it from the dock. 3.5mm mini-jack lets you connect other audio devices. Includes wireless

remote control which navigates iPod and iPhone menus from up to 15' away. (JBSDOSM3IP).....**99.00**

## SONY ICF-CD3iPSIL

## CD Clock Radio for iPod and iPhone

The ICF-CD3iPSIL sports a space-saving design utilizing a sliding dock tray that hides when not in use. Dual alarms can be used with settings for iPod, CD player, radio or buzzer with flexible 2, 5, and 7 day settings. Also has a 3.5mm jack to connect additional players. A full function remote control lets you control the action anywhere in the room. Stereo speakers provide a complete and enjoyable listening experience. Sony Autoclock technology means you never have to set the time as the clock is set at the factory and you only have to program the correct time zone.

### DMP-B100 • DMP-B500 Portable Blu-ray Disc Players

The DMP-B100 and DMP-B500 are designed to provide the ultimate high definition Blu-ray experience for those on the go. They feature much of the same technology found in Panasonic's stand-alone Blu-ray Disc players, including the PHL Reference Chroma processor Plus. This technology reproduces color data with twice the accuracy of conventional systems, resulting in faithful and sharp colors.

The DMP-B100 features a high resolution 8.9" WSVGA LCD screen an SD Memory Card Slot for playback of JPEG images, an adjustable position screen, Dolby Digital and DTS HD. Mono-arm design allows the display angle of the B100 to be freely adjusted.

The DMP-B500 steps with a 10.1-inch WSVGA screen, VIERA CAST internet functionality with Wi-Fi connection, an SD Memory card Slot that can playback digital still JPEG images and high definition video (AVCHD), and a USB port. It also offer VIERA Link, a technology that utilizes HDMI to enable control all VIERA Link compatible products with one remote. A photo stand-like design allows for comfortable positions.

DMP-B500's VIERA CAST content include Netflix, Pandora, Twitter, Fox Sports, Amazon Video on Demand, YouTube, Picasa Web Albums, Bloomberg and a weather channel. (The service is free, though there is a charge for movies streamed from Amazon Video on Demand and Netflix.)
